

Pressure Sensors & Load Cells

- MEMS Die and Oil Filled
- MEMS Si Strain Gauge
- Altimeters & Barometers
- BFSG Technology

Temperature, Humidity & Heaters

- NTC Thermistor
- Platinum & Nickel RTD
- Thermocouple
- Non-contact IR
- PTC Heaters

Position, Rotary & Tilt

- LVDT/RVDT
- M-R Rotary
- Inclinometers
- AMR Magnetics
- Precision Resistive

Vibration & Optical

- Accelerometer
- Vibration
- Rate Gyros
- Tilt
- Visible & IR

Piezoelectric Sensors

- Piezo Polymer Film
- Liquid Level Sensors
- Air Bubble Detectors
- Contact Microphones

TE Connectivity's (TE) Measurement Specialties is a global designer and manufacturer of sensors for medical, industrial, avionics and alternative energy markets: Pressure, Temperature, Force, Position, Rotary, Tilt, Vibration, Humidity and IR Sensors. Providing standard, modified standard and custom assemblies.
